

Purpose of the Meeting

The purpose of the meeting is to share the summary of findings and recommendations from the research in the 10 study countries and receive feedback from key regional stakeholders. The stakeholders, comprised of state and non-state actors, include members of NCATFs and the Conservation Agriculture Regional Working Group (CARWG), as well as policymakers, government officials, civil society organisations, development partners, farmers' organisations, researchers, and the media. The feedback from the stakeholders will be used by the lead researcher to finalise the regional synthesis report, and to draft a policy brief based on the research findings and recommendations.
